

**Half Yearly Compliance Report****2024****01 Jun(01 Oct - 31 Mar)****Acknowledgement**

<b>Proposal Name</b>	Sagar Cements limestone mine of M/s Sagar Cements limited		
<b>Name of Entity / Corporate Office</b>	Sagar Cements limited		
<b>Village(s)</b>	N/A		
<b>District</b>	SURYAPET		
<b>Proposal No.</b>	9682/R2-2/2003	<b>Category</b>	Non-Coal Mining
<b>Plot / Survey / Khasra No.</b>	N/A	<b>Sub-District</b>	N/A
<b>State</b>	TELANGANA	<b>Entity's PAN</b>	*****EQUIRED
<b>MoEF File No.</b>	J-11015/53/2003-IAII(M)	<b>Entity name as per PAN</b>	SAGAR CEMENTS LIMITED

**Compliance Reporting Details**

<b>Reporting Year</b>	2024
<b>Remarks (if any)</b>	
<b>Reporting Period</b>	01 Jun(01 Oct - 31 Mar)

**Details of Production and Project Area**

**Name of Entity / Corporate Office** Sagar Cements limited

	<b>Project Area as per EC Granted</b>	<b>Actual Project Area in Possession</b>
Private	196.35	196.35
Revenue Land	0	0
Forest	0	0
Others	0	0
<b>Total</b>	<b>196.35</b>	<b>196.35</b>

**Production Capacity**

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	Limestone	Million Tons per Annum (MTPA)	31/01/2026	0.8	0.50	3.3

**Conditions**

## Specific Conditions

Sr.No.	Condition Type	Condition Details
1	MISCELLANEOUS	The Company shall earmark a separate fund of 1 percentage of the total project cost with a minimum of Rs. 50,000/- for Eco development measures including welfare measures in the project area. The amount shall be deposited by the company in a separate account within three months to be maintained by the Andhra Pradesh State Pollution Control Board (APSPCB). The action plans in this regard shall be submitted to APSPCB as well as to this Ministry within three months of issue of this letter. After approval of the action plan by the APSPCB, the amount deposited will be released in two installments to the project authorities based on the progress of implementation. The APSPCB shall ensure that implementation of the action plan for eco development measures is completed within two years from the date of its approval by APSPCB. Further, the interest accrued during this period on the amount deposited by the project authorities with the APSPCB shall be ploughed back to the same Eco development fund.
<b>PPs Submission:</b> Complied Complied accordingly		<b>Date:</b> 26/05/2025
2	LAND RECLAMATION	Top soil should be stacked properly with adequate measures at earmarked sites and used for green belt development.
<b>PPs Submission:</b> Being Complied Whatever the BC soil generated during the mining operations is being used for plantation simultaneously without stocking anywhere.		<b>Date:</b> 26/05/2025
3	WATER QUALITY MONITORING AND PRESERVATION	Catch drains, check dams and siltation ponds of appropriate size should be constructed to arrest silt and sediment flows from the soil and mineral dumps, The water so collected should be utilized for watering the mine area, roads. Green belt development etc. The drains should be regularly desalted and maintained properly. Garland drain (Size gradient and length) and sump capacity should be designed keeping 50 percentage safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine site. Sump capacity should also provide adequate retention period to allow proper setting of silt material. Sedimentation pits should be constructed at the corners of the garland drains.
<b>PPs Submission:</b> Being Complied Constructed the garland drains and maintaining the same.		<b>Date:</b> 26/05/2025
4	AIR QUALITY MONITORING AND PRESERVATION	Drills should be wet operated with dust extractors and controlled blast should be practiced. Blasting operation should be carried out only during daytime. The mitigative measures for control of ground vibrations to arrest the fly rocks and boulders should be implemented
<b>PPs Submission:</b> Being Complied Taking all the measures to minimise the vibration during the blasting, and we are practicing wet drilling. Blasting is being carried out only in daytime by using Nonel.		<b>Date:</b> 26/05/2025
5	GREENBELT	A green belt of adequate width should be raised by planting the native species around the ML area, along the roads, dump sites etc. in consultation with the local DFO/Agriculture department. The density of trees should be around 2500 plants/ha. The width of peripheral green belt should be at least 50 m.

<p><b>PPs Submission:</b> Being Complied plantation and greenbelt development covering over an extent of Ha. 32.10 and Ha.91.45 within ML area and outside ML area respectively. And we prefer different varieties of native species and soil fixing plants for plantation</p>		<p>Date: 26/05/2025</p>
6	<p>AIR QUALITY MONITORING AND PRESERVATION</p>	<p>Crusher should be operated with high efficiency bag filters, water sprinkling system should be provided to check fugitive emissions from crushing operations, haulage roads, transfer points, etc.</p>
<p><b>PPs Submission:</b> Being Complied Continuous Water sprinkling along the haul roads and near crusher transfer points is in practice, we are using bag filters near crusher to arrest the dust at source.</p>		<p>Date: 26/05/2025</p>
7	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>The mined out void converted into water reservoir at the end of the mining should be properly sloped, stabilized and fenced.</p>
<p><b>PPs Submission:</b> Being Complied Company will comply accordingly once the ML area fully mined out/mineral is exhausted.</p>		<p>Date: 26/05/2025</p>
8	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>Regular monitoring of ground water level and quality should be carried out by establishing a network of existing wells and constructing new Piezometers at suitable locations in project area. The frequency of monitoring should be four times in a year January, Pre Monsoon (April/May), monsoon (August), Post-Monsoon (November), and Winter (January) seasons for groundwater level and quality in May. Data generated from groundwater regime monitoring will be submitted to CGWB, Southern Region on an annual basis.</p>
<p><b>PPs Submission:</b> Being Complied Monitoring the ground water levels by establishing peizometers by using manual water level indicator and submitting the report to concerned authorities.</p>		<p>Date: 26/05/2025</p>
9	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>The proponent shall undertake suitable artificial recharge measures in the project area for augmentation of ground water resource.</p>
<p><b>PPs Submission:</b> Being Complied Constructed the RWHP in and around the ML area and storing the water in the bottom benches of the mines to recharge the ground water in the surrounding wells.</p>		<p>Date: 26/05/2025</p>
10	<p>MISCELLANEOUS</p>	<p>Consent to Operate should be obtained from the SPCB before resuming mining operations.</p>
<p><b>PPs Submission:</b> Being Complied Obtained CFO from State Pollution Control Board before resuming the mining operations and renewing the same periodically.</p>		<p>Date: 26/05/2025</p>
11	<p>AIR QUALITY MONITORING AND PRESERVATION</p>	<p>Metal road should be constructed from the quarry to the plant site. Vehicular emissions should be kept under control and regularly monitored.</p>
<p><b>PPs Submission:</b> Being Complied Constructed the metal road from mines to plant and we are taking all the precautions to minimise the vehicular emissions into the atmosphere.</p>		<p>Date: 26/05/2025</p>
12	<p>MISCELLANEOUS</p>	<p>The project proponent should take all precautionary measures for conservation and protection of endangered fauna such as pangolin and peacock found in the core and buffer zone in consultation with</p>

		the concerned forest officials for advisory support and technical inputs.
<b>PPs Submission:</b> Being Complied Submitted application for Wild Life Conservation Plan for approval in the Forest Department.		Date: 26/05/2025
13	MISCELLANEOUS	A final Mine Closure Plan along with details of Corpus Fund should be submitted to the Ministry of Environment Forests 5 years in advance of final mine closure for approval.
<b>PPs Submission:</b> Agreed to Comply Will be complied accordingly during the final closure of the mines.		Date: 26/05/2025
<b>General Conditions</b>		
Sr.No.	Condition Type	Condition Details
1	MISCELLANEOUS	No Change in Mining Technology and scope of working should be made without prior approval of the Ministry of Environment and Forests.
<b>PPs Submission:</b> Being Complied There is no change in the mining technology and scope of working shall not be changed without prior approval of the Ministry of Environment and Forest.		Date: 26/05/2025
2	MISCELLANEOUS	No Change in the calendar plan including excavation, quantum of limestone and waste should be made.
<b>PPs Submission:</b> Being Complied No change in the calendar plan including quantum of mineral limestone and waste shall be made without prior approval of the MoEFCC		Date: 26/05/2025
3	AIR QUALITY MONITORING AND PRESERVATION	Four ambient air quality monitoring stations should be established in the core zone as well as in the buffer zone for monitoring RPM, SPM, NOX and SO2 Location of the ambient air quality stations should be decided based on meteorological data, topographical features and environmentally and ecologically sensitive targets and the frequency of monitoring should be undertaken in consultation with the state pollution control board.
<b>PPs Submission:</b> Being Complied Installed Sufficient number of environmental parameter stations based on the meteorological data in the core and buffer zones of the ML area. Environmental parameters being monitored by 3rd party once in a Quarter.		Date: 26/05/2025
4	Statutory compliance	4. Data on environmental quality should be regularly submitted to the ministry including its regional office at Bangalore and the State Pollution Control Board/Central Pollution control Board once in Six Months.
<b>PPs Submission:</b> Being Complied Sending the Environmental Parameters Monitoring Reports to the concerned authorities periodically.		Date: 26/05/2025
5	AIR QUALITY MONITORING AND PRESERVATION	Adequate measures for control of fugitive emissions should be taken during drilling and blasting operations, loading and transportation of mineral, etc. Fugitive dust emissions should be regularly monitored and data recorded properly. Water spraying

		arrangements on haul roads, loading and unloading points, and transportation of minerals, etc.. Should be provided and properly maintained.
<b>PPs Submission: Being Complied</b> Continuous water spraying on all the dust emission places is in practice and we are taking all the precautions to minimise the dust emissions.		Date: 26/05/2025
6	Noise Monitoring & Prevention	Adequate measures should be taken for control of noise levels within prescribed standards. Workers engaged in blasting and drilling operations, of HEMM, etc., should be provided with ear plugs/muffs.
<b>PPs Submission: Being Complied</b> Providing Ear Plugs/Muffs to the workers engaged in the blasting and drilling operations of HEMM.		Date: 26/05/2025
7	WATER QUALITY MONITORING AND PRESERVATION	Industrial waste water (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May 1933 and 31st December 1993 or as amended from time to time. Oil and grease trap should be installed in the mine for treatment before discharge of effluents from the Workshop. Mine seepage water shall be tested and treated to conform to prescribed standards before discharge.
<b>PPs Submission: Being Complied</b> Implementing the same. Oil and grease trap system is in practice		Date: 26/05/2025
8	Human Health Environment	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
<b>PPs Submission: Being Complied</b> Providing Protective Respiratory Devices for persons working near dusty areas and we are providing periodical training to the workers on safety and health aspects.		Date: 26/05/2025
9	Human Health Environment	Occupational health surveillance programme of the workers should be undertaken periodically and corrective measures taken, if required.
<b>PPs Submission: Being Complied</b> Occupational health surveillance programme of the workers is being conducted periodically.		Date: 26/05/2025
10	Statutory compliance	The data on environmental quality should be collected and analysed either through an in house environmental laboratory established with adequate number and type of pollution monitoring and analysis equipment or got analysed through an approved laboratory under the Environment (Protection) Rules, 1986 in consultation with the State pollution control Board. A separate environmental management cell with suitable qualified personnel should be set up under the control of a senior executive who will report directly to the head of the organization.
<b>PPs Submission: Being Complied</b> Environmental parameters being tested periodically by 3rd party i.e., Lawn Envrio Private Limited. We have separate environmental management cell which is under the control of Manager Environment and ESG and he is reporting to head of the organization.		Date: 26/05/2025
11	Statutory compliance	The funds earmarked for environmental protection measures should be kept in separate account and not diverted for any other purpose. Year wise expenditure should be reported to the Regional Office,

		Bangalore of the MOEF and to the Ministry.
<b>PPs Submission:</b> Being Complied We are Complying.		Date: 26/05/2025
12	Statutory compliance	The Regional Office of this Ministry located at Bangalore shall monitor compliance of the stipulated environmental conditions. The project authorities should extend full cooperation to the officers of the Regional office by furnishing the requisite data/information/monitoring reports.
<b>PPs Submission:</b> Agreed to Comply We will provide required data/Information to the Concerned officers.		Date: 26/05/2025
13	Statutory compliance	A copy of the clearance letter should be marked to concerned panchayat/local NGO, if any, from whom any suggestion. Representation has been received while processing the proposal.
<b>PPs Submission:</b> Complied Complied		Date: 26/05/2025
14	Statutory compliance	The State Pollution control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and the collectors/ Tehsildars office for 30 days.
<b>PPs Submission:</b> Complied Complied		Date: 26/05/2025
15	Statutory compliance	The project authorities should advertise at least in two local newspapers widely circulated around the project, one of which shall be in the vernacular language of the locality concerned within 7 days of issuance of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and may also be seen at web site of the Ministry of Environment and Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> .
<b>PPs Submission:</b> Complied Advertised the EC in Deccan Chronicle English and Eenadu Telugu Daily News papers and intimated the same to MoEF Regional office, Bangalore.		Date: 26/05/2025
<b>Visit Remarks</b>		
<b>Last Site Visit Report Date:</b>		N/A
<b>Additional Remarks:</b>		
<b>Note:</b> This acknowledgement is as per the details submitted by project proponent. In no way is this document to be considered as conclusion on any action on the compliance of the project. This is strictly for the project proponent's reference purpose.
